Congress has directed the Commission to establish state advisory committees (SACs) in all 50 states and the District of Columbia to study issues and forward advisory reports to the Commission on matters within the agency's jurisdiction that reflect the views of the majority of SAC members producing the report.

The SACs' reports to the Commission may rely on studies and data generated by third parties and are not subject to an independent review by Commission staff. The views expressed in reports are those of a majority of the State Advisory Committee members and do not necessarily represent the views of the Commission or its individual members, nor do they represent the policies of the U.S. government.
